## **Human Pleiotrophin (PTN) Recombinant Protein**

| <b>Product Details</b>  |   |
|-------------------------|---|
| Size                    | 20 μg   |
| Species                 | Human   |
| Expression system       | E. coli   |
| Amino acid sequence     | Human Pleiotrophin recombinant protein contains 136 amino acids |
| Molecular weight        | 15.4 kDa  |
| Class                   | Recombinant   |
| Туре                    | Protein   |
| Purity                  | >98% by SDS-PAGE  |
| Endotoxin concentration | <0.1 ng/µg  |
| Conjugate               | Unconjugated  |
| Form                    | Lyophilized   |
| Purification            | sequential chromatography                                       |
| Storage buffer          | 5mM sodium phosphate, pH 7.4                                    |
| Contains                | no preservative   |
| Storage conditions      | -80°C   |

| Applications               | Tested Dilution | Publications |
|----------------------------|-----------------|--------------|
| Western Blot (WB)          | Assay-dependent | -            |
| Immunohistochemistry (IHC) | Assay-dependent | -            |
| ELISA (ELISA)              | Assay-dependent | -            |
| Functional Assay (FN)      | Assay-dependent | -            |
| Control (Ctrl)             | Assay-dependent | -            |

## **Product Specific Information**

Carrier-Free

Reconstitution: We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Reconstitute Pleiotrophin in sterile, distilled water to a concentration of 0.1-1.0 mg/mL. Do not vortex. This solution can be stored at 2°C to 8°C for up to 1 week. For extended storage, it is recommended to further dilute in a buffer containing a carrier protein, such as 0.1% BSA and store in working aliquots at -20°C to -80°C.

Storage: The lyophilized protein is stable at room temperature for 1 month, but should be kept at -20°C for long term storage. Working aliquots stored with a carrier protein are stable for at least 3 months at -20°C to -80°C. Avoid repeated freeze/thaw cycles.

For Research Use Only, Not for use in diagnostic procedures. Not for resale without express authorization, Products are warranted to operate or perform substantially in conformance with published Product specifications in effect at the time of sale, as set forth in the Production documentation, specifications and/or accompanying package interaction?). No claim of suitability for use in applications regulated by FDA is made. The warranty provided herein is valid not not herein is valid not herein in valid not herein is valid not not herein is valid not not not be used for any other purpose, including without limitation, unauthorized commercial uses, in vitro diagnostic uses, ex vivo or in vivo therapeutic uses, or any type of consumption by or application to human or animals.
